Being an

ALMANACK

FOR

The Year of Human Redemption 1706, it
being the Second after *Bissextile*, or *Leap-Year*.

Wherein is contained

First, a Table of the *Terms* with their Returns; Secondly, a Table of all the Kings and Queens Reigns from King *Egbert*, to this present Reign.

Thirdly, the Fulls, Changes and Quarters of the *Moon*, the Conjunctions of the *Moon* with the other Planets, the Rising, Setting, and Southing of the seven Stars, and other fix'd Stars of note; with the *Moon's* Age to every Day of the Month, and a Tide-Table fitted to the same. As also the Rising and Setting both of the *Sun* and *Moon*, the mutual Aspects and Weather, with monthly Observations very necessary.

Fourthly, a plain and easie Table of Interest, and a Chronology of many remarkable things.

Fifthly, the Eclipses of the Luminaries, and Astrological Observations on the Four Quarters of the Year, &c.

Unto which is added,

First, An Account of the Progeny of King *James I.* from whom our Gracious Queen is lawfully descended: Secondly, An Account of Hieroglyphicks, and particularly of one representing the French King's Tyrannical Power, and the Tyranny of the Popish Clergy, and his Downfall, by a Ram treading down a Field of *Flower-de-luces*, and underneath three dead Dragons: Thirdly, a strange Prophecy of a Jewish Pilgrim, with many other Things of Note.

Rectify'd chiefly to the Meridian of *London*, whose Latitude is 51 Degrees, 32 Minutes North; but will serve for any part of *Great-Britain* or *Ireland*.

By *Francis Moore*, Licens'd Physician, and Student in
ASTROLOGY.

Canst thou send the Lightnings, that they may walk, and say unto thee,
Lo, here we are? Job, Ch. 38. Ver. 35.

London, Printed by T. Baskett for the Company of Stationers.

To the Most High and Mighty Princess ANNE,
Queen of Great Britain, France and Ireland, &c.

MI drowsy Muse has newly taken flight,
From the dark Mansions of the shady Night;
Inspir'd with Zeal, tho' in rude Strains, she'll raise
Her Notes to the Immortal ANNA's Praise: Thus,

Once more Great Queen, next under God, arise,
Awake, awake, your Guardian Angel cries,
The mighty Powers above will still protect
(You) in your ways, and will your course direct;
Ne'er fear the Power of an insulting Foe,
'Tis your Success brings lofty Lewis low;
Addresses swarm from the Hybernian Shore,
And many Lands your mighty Aid implore;
Since you're a Queen, on whom kind Heaven Smiles,
The Mother, and Protector of these Isles,
Go on with Courage, let your Arms Advance
Thro' Belgia to the very heart of France;
Help the Distressed, those that crave your Aid,
And make proud Lewis of your Arms afraid;
Display your Banners o'er the Gallick Soil,
Where Edward and fam'd Henry once did foil
(Their daring Foes,) and gained such Renown,
That fix'd the Lilly in the English Crown.
Fam'd thro' the World, your mighty Acts do fly,
All Europe triumphs in your Majesty:
Therefore take courage, all lies at the stake,
Your Guardian Angel cries, once more awake,
Stand stoutly to it, and new Measures take.
The Seed of those did Tyranny affect,
Court you with Flattery, and nor Respect;
Had they their Ends, they'd set the Mob to work,
And make room for the haughty Christian Turk,
That cunning Fox, that sets the World at strife,
What wou'd he give to have your precious life,
Or else to see you toss'd beside the Throne,
That he may place a Cub there of his own?
But hold my Muse, in silence I'll remain,
Whilst our great Queen, new Conquests does attain;
'Tis her brave Arms gains her Immortal Glory,
Whilst Lewis frets, and sadly tells the Story

To Madam Maintenon.

Since this fam'd Island England's Name did own,
Full fifty Monarchs have possess'd the Throne ;
Some for their Learning, some for Valour stand
Recorded Heroes of this warlike Land ;
Whose Swords the mighty Power of France did shake,
And made their haughtry Princes Hearts to quake.
May our Great Glorious Queen of high Renown
Never sheath (Hers) till she bring Lewis down.

The Judges sit not at Westminster on *Cardinal-day*, *Ascension-day*,
Whitsunday, *All-Saints*, nor *All-Souls Days*.

God bleſs the Judges learned in the Law,
That help the Poor, and keep the Proud in awe:
And alſo bleſs the noble Counſellor,
That Juſtice doth before a Fee prefer.
I hen on ſuch Terms as theſe you need not ſtand,
Nor fear the ſwarming Locuſts of the Land;
Thoſe Sons of Violence, who ſharper bite,
Than Indian Mutcheto's in the Night:
No nor that ill-bred Bruit, of monſtrous Shape,
(What ſhall I ſay) a Pont'r gogled Ape.

The Table of the Terms explain'd.

NOW every Term hath part, or all these Returns, viz. *Craftino*, *Oftabis*, *Quindens*, *Tres*, *Menfe*, and *Quinquē*. Every Return also has a *Basis* or *Know-day*, from whence they take their reckoning, the signification of which are: *Craftino* is the Morrow after the *Basis*, as *Craftino Trinitatis* is the Morrow after *Trinity Sunday*, it being the Day of Denomination; *Oftabis* is eight Days inclusively; *Quindens* is fifteen Days after, and *Tres* three Weeks, *Menfe* a Month, and *Quinquē* five Weeks after.

Note, Now every one of these Returns has four Days to consist upon, the first whereof has double signification, for the one is the Day of Return, the other the Day of Effoyne, for the Defendant in a Personal Action, or the Tenant in a real Action to be effoynd'd; the second is the Day of Exceptions for the Plaintiff, to lay an Exception, if no Effoyne be cast, that the Defendant shall not be effoynd'd or amerced; the third is *Returna Brevium*, or Day whereon the Sheriff must return the Writ; and the fourth is the Day of Appearance for Parties and Jurors in the Court of Common-pleas. But if any of these Days fall on a Holyday, that is no Court Day; as in *Easter Term* on *Holy Thursdays*, or upon *St. John Baptist* in *Trinity Term*; in *Michaelmas Term*, on *All-Saints*, or *All-Souls Day*; and in *Hilary Term* on *Candlemas Day*: Or upon any Sunday, which are no Court Days; then must the next Day following serve for both, as if the Effoyner Day fall on Sunday, then Monday must serve both for the Effoynd Day and day of Exception, and so of the rest. These Days are of most use in the Common-pleas, where all Suits commence, &c. but for *Laritats*, or other Process upon a Bill certain, it is upon a Day certain, as *Die Luna prox. post Purif.* which always is reckoned from the Effoynd Day. In the Chancery Court none of these Returns are used, but only the Day of Appearance, which is *Quarto die post*. But if a *Capias*, *Exigent*, *Seire-Facias* or *Distingas*, be executed after the Effoynd Day, by the Sheriff, or a Commission set upon, out of any of the aforesaid Courts, after the said Effoynd Day, it is neither justifiable nor warrantable.

*These Terms were made to keep cross Men in awe,
Not for the cunning Rook to pelt the Daw.*

The Almanack Explain'd.

Again th' Immortal ANNA's Praise I'll sing,
 A Monarch sure, much greater than a King;
 One Generous, Good, Pious, Wise, and Just,
 Who rais'd our drooping Spirits from the Dust;
 'Tis your great Name, 'tis your victorious Arms,
 Plagues loſty Lewis, and confounds his Charms.

God made you Shepherds, we are your Sheep,
And under you he will us safely keep,
From rav'nous Wolves, and other Beasts of Prey,
That would our Liberties and Lives destroy;
Not altogether those in open Wars,
But ill-bread Curs, that cause our in-bred Jars.

New Moon 1st day
 at 31 M. P. 9 morn

A Type of the
 Sun's Eclipse, May
 the first, 1706.

First Quart. the 8th
 day, at 2 afternoon

This Month is usher'd in with a great
 and visible Eclipse of the Sun, at which
 time *Saturn* is near the Luminaries: It
 happens in the very beginning of the last
 Decanate of *Taurus*. God bless the Fruits
 of the Earth, and preserve the People,
 Full Moon the 16th day, at 4 aftern.

1 especially those subject to that Sign, from
 2 a raging Distemper this Summer. The
 3 larger sort of Cattel are menaced; and
 4 many hopeful Councils I fear are brought
 5 to nought and ruine by Treachery; and a
 6 certain Prince under trouble and affliction
 7 about this time, both in Body and Mind. The Ci-
 8 ty of Vienna menaced with some trouble. Let not
 9 Bavaria rebel. Catalonia in a strait, the Pope very
 10 uneasy, and it will be good for the Swede to make
 11 Peace in time. England tho' are happy, if thy Peo-
 12 ple can but keep in their right minds, and not har-
 13 ken to so many lying Pamphlets, spread abroad to
 14 disturb the Peace of Sim, &c.

Last Quarter, the 24th day, at 1 morn.

New Moon the 30th day at 6 night.

June

June hath xxx Days.

The Angel of the Lord will go along,
With you, Great Queen, and keep you safe from wrong;
With Victory he'll blest you all your days,
And crown you with an everlasting Praise;
A Praise that neither Pope nor Gallick Turk,
Shall ever blast, or once begin that work.

If you would know the Interest of one hundred Pounds for one Month, two Months, three Months, six Months, nine Months or a Year, look for 100 l. in the side; and in the next Column under one Month is ten shillings, for 2 Months one Pound, for 3 Months one Pound ten Shillings, for 6 Months three Pounds, for 9 Months four Pound ten Shillings, and for a Year six Pounds; and so of the rest.

This is the best way by which Men should

To Interest let their Silver and their Gold.

The Worldly Misers when to raking fall,

They with their Interest get the Devil and all.

The Progeny of King JAMES the First.

KING *James I.* was married to *Anna Sophia*, Daughter to *Frederick II.* King of *Denmark*. He was born Anno 1566, and died Anno 1625. His Queen was born, 1574, and departed this Life, 1618, by whom he had issue 5 Children; the first, *Henry*, Prince of *Wales* and *Scotland*, born 1593, and died unmarried in 1612. The second, the Princess *Elizabeth*, born 1596, and died 1662. She was married to *Frederick V.* Elector *Palatine*, and King of *Bohemia*, who was born Anno 1596, and died 1632. The third was *Charles I.* who was King after him, and was born Anno 1600; but was murder'd at his own Palace Gate, Jan. 30. 1648, 9. The other two were Daughters, the one *Mary*, the other *Sophia*, which both died young; so it is plain only two of *K. James's* Children had Issue. I shall treat first of the Male-side, viz. *K. Charles I.* and those descended from him. This Prince was married to *Henrietta Maria*, Daughter to *Henry IV.* King of *France*; she was born Anno 1609; by whom he had Issue seven Children: First, *Charles James*, who quickly died: Second *Charles*, who was King after him, and was born May 29, 1630, and married to *Catharine*, Daughter to *John IV.* King of *Portugal*, who was born Anno 1638, he died Anno 1684, 5. and by her had no Issue. The third of King *Charles I.'s* Children was *Mary*, born 1631, and was married to *William* Prince of *Orange*, who was born 1626; by whom she had *William Nassau*, Prince of *Orange*, who was born 1650, and afterwards King of *Great Britain*. In the same Year this Prince was born, died his Father, and his Mother *Mary* departed this Life Anno 1650. The fourth of King *Charles I.'s* Children was *James* Duke of *York* born 1633. He married first, *Anne*, Daughter to the Earl of *Clarendon*, by whom he had six Children. The first born 1660, named *Charles*, and was Duke of *Cambridge*, he died Anno 1667. The second was *Mary*, born 1662, and married to her Cousen *William Nassau* Prince of *Orange*. The third was *James* Duke of *Kendal*, born 1663, and died 1667. The fourth was *Anne*, our now Gracious Queen, born February 6, 1664, 5, and married to his Royal Highness

The Progeny of King James the First. 5.

Highness Prince George of Denmark, Anno 1683, whose Issue I shall forbear to mention, tho' many, yet by the Will of God none living. The fifth of James Duke of York's Children, was a Son, born 1667, but lived not long. The sixth was a Daughter called *Henrietta*, born 1668, and died 1669, then his Dutches died also, and he married again unfortunately to *Mary* Daughter of *Modena*, in 1673, by whom he had issue, a Daughter born 1675, who was named *Catharina-Laura*, a second Daughter born 1676, named *Isabella*, then a Son, in 1677, named *Charles*. These nine Children James Duke of York had by his two Dutcheſſes, &c. he came to the Crown of *England* on February 6. 1684, 5; and in the Year 1687, ten Years compleat after the birth of the last Child, his Queen humbly, as they say, conceiv'd again, and on the 10th of June, 1688, brought forth a Son, and call'd his Name *James-Francis-Edward*, entituled Prince of *Wales*, and since by the *French* King own'd by the Title of *K. J. III. of England*, &c. Now King *James* having abdicated on December 12. 1688, was succeeded by his Nephew, *William* Prince of *Orange*, and his Daughter *Mary*, who was Consort to this Royal and Warlike Prince; they sway'd the Scepter jointly from 1688 to 1694, when this good Queen departed this Life no doubt for a better; and then the Crown was left wholly to *K. William* during his life. But it is said *K. James's* Queen conceived again in *France*, and brought forth a French A-la-mode Daughter, and called her Name *Maria Louisa*, in the Year 1692. Then in the Year 1701, and on the 5th of September, died King *James* at *St. Germain's*; and also on the 8th of March 1701, 2. died King *William III.* at which time the Crown came to the best of Queens, whom God grant long to reign and rule over us, where I leave the Progeny of *K. James II.* and return to the fifth Child of *K. Charles I.* who was born Anno 1635, named *Elizabeth*, and died unmarried in 1650. The sixth was *Henry* Duke of *Gloucester*, who was born 1639, and died also unmarried, Anno 1660. The seventh and youngest of *K. Charles I.'s* Children, was *Henrietta*, who was born in 1644, and died in 1670. She married *Philip* Duke of *Orleance*, Brother to the present French King, he was born 1640, and died 1671, by whom she had Issue two Daughters, the first *Mary* born 1662, and died 1689; she was the

6 *The Progeny of King James the First.*

the first Wife of *Charles II.* late King of *Spain*, who was born 1661, and died 1700, without Issue. The Dutchess of *Orleanse's* second Daughter was *Anna Maria*, born 1669, and married to *Victor Amadeus II.* Duke of *Savoy*, who was born 1666, by whom she has Issue, *Maria*, born 1685, married to *Lewis* Duke of *Burgundy*, eldest Son to the Dauphin of *France*, who was born 1682, and by whom she has had one Son, entituled Duke of *Britany*, but dead. The Dutchess of *Savoy's* second Issue is *Louisa Gabriella*, born 1688, and married to *Philip*, Duke of *Anjou*, by some called *Philip V.* of *Spain*, who was born 1683. The third is a Son born 1698, named *Victor Amadeus*, entituled Prince of *Piedmont*; and another Son called *Charles*, who was born 1701, and has the Title of Duke of *Abust*.

And now having given you an impartial Account of the Issue of King *James I.* by the Male side, I come next to give you an Account of those descended by the Female side, viz. from *Elizabeth*, Daughter to King *James I.* who was born Anno 1596, as before-mentioned, and married to *Frederic V.* Elector Palatine, and King of *Bobemia*, who also was born in 1596, and by whom she had Issue, first, *Charles Louis*, Elector Palatine, who was born 1617, and died 1680; he married *Charlotte* Daughter to *William V.* Landgrave of *Hesse*, by whom he had *Charlotte Elizabeth*, who was born 1651, and second Wife to *Philip* Duke of *Orleanse*, by whom she had Issue *Philip* Duke of *Chartres*, born 1674, who married *Frances Mary de Blois*, a natural Daughter to the French King, (a smooth term for a Bastard) by whom he had Issue, a Son without date, call'd Duke of *Chartres*; then a Daughter named *Mademoiselle de Valois*, born 1693; another Daughter named *Mademoiselle de Orleanse*, born 1695; a third Daughter, *Mademoiselle de Chartres*, born 1698. The Duke of *Orleanse* had also by his second Wife a Daughter, born 1676, married to *Leopold Charles* Duke of *Lorraine*, who was born 1679, but have no Issue. And this brings us to the second Issue of the Queen of *Bohemia*, which was Prince *Rupert*, whose Name sounded famous in *England* many Years; he was born 1619, and died unmarried in the Year 1682. The next was his Brother Prince *Maurice*, born 1620, never married, he was drown'd. The next was *Edward* Count Palatine, born 1625, and died

1663; he took to wife *Anne Gonzagues*, Daughter of the Duke of *Mantua* and *Nevers*, by whom he had Issue first a Daughter named *Anne*, born 1647, married to *Henry Julius* Prince of *Conde*, who was born 1643, and by whom she had Issue, first, *Maria Theresia* Wife of the Prince of *Conde*, she was born 1666; the second was *Louis de Bourbon*, born 1668, who took to wife *Louisia Frances*, a natural Daughter to the French King, born 1673, by whom he has Issue, first, *Mademoiselle*, born 1690; the second, *Louis Henry* Duke of *Angum*, born 1692; the third, *Louise Elizabeth*, born 1693; the fourth was *Mademoiselle de Clermont*, born 1697. Then the third Issue is *Louise Benedicte Mademoiselle de Conde*, born 1675, and was married to the Duke *Dumain*, a Natural Son, (or Bastard if you please) of the French King, who was born 1670, by whom she has Issue *Louis Constantine*, born 1694, then *Mademoiselle d'Aumale*, born 1697: Now the fourth Issue of the Prince of *Conde* was *Anne Marie Mademoiselle de Angum*, born 1675; the fifth, *Marie Anne Mademoiselle d' Montmorency*, born 1678; then the second Issue of *Edward*, Count *Palatine*, was *Benedicta Henrietta Philippina*, born 1648, and was married to *John Frederic*, Duke of *Hanover*, who was born 1625, and died 1680, by whom she had Issue, first, *Charlotte*, born 1671, and married to *Rainald* Duke of *Modena*, he was once a Cardinal, and by whom she has no Issue. *Willielmina Amelia*, born 1673, and is married to *Joseph*, eldest Son to the late Emperor of *Germany*, and now the present Emperor, who was born 1678, and by whom she had Issue a Son, dead; a Daughter, dead; and one Daughter living, born 1701, named *Maria Amelia*. The third Issue of *Edward*, Count *Palatine*, was *Louise Mary*, born 1652, and died 1679, she was married to *Charles Theodore Otto*, Prince of *Salm*, who died 1671, by whom she had Issue a Son named *Louis Otto*, born 1674, and two Daughters without name or date.

And this brings us in the last place to the Line of the youngest Issue of the Queen of *Bohemia*, who was the Daughter of *K. James I.* which Issue is the Princess *Sophia*, Dutchess Dowager of *Hanover*, born 1630, and was married in 1658 to *Ernest Augustus*, late Elector of *Hanover*, who was born 1629, and by whom she had Issue seven Children, viz. first, *George Louis*, Present Elector of *Hanover*, who was born

8 *The Progeny of King James the First.*

1660, and married in the Year 1682 to his Cousin *Sophia Dorothy*, only Daughter to *William Duke of Cell*, by whom he has Issue, first, a Son named *George Augustus*, born 1683; then another Son born 1685, named *William Ernest*; and also a Daughter named *Sophia Dorothy*, born 1687. The second Issue of the Princess *Sophia of Hanover* was *Frederick Augustus*, born 1662, and slain in *Hungary*, 1691. The third was *Maximilian*, born 1666. The fourth was *Sophia Charlotte*, born 1668, and married to *Frederick III. Elector of Brandenburg*, and King of *Prussia*, by whom she has Issue only a Son, named *Frederick William*, born 1688, and is now Electoral Prince of *Brandenburg*. The sixth Issue of the Princess *Sophia* was *Christian*, born 1671. And the seventh and last was *Ernest Augustus*, born 1674. Now it is to this illustrious Descent the Crown of *England* was settled by Act of Parliament in the Year 1701, for want of Issue by our most Gracious Sovereign Lady Queen *Anne*, whom God grant long to reign over us here, and at length crown her with Immortal Glory, to reign a Queen for ever amongst the blessed Saints and Angels of God in Glory. *Amen.*

Of the Eclipses this Year 1706.

WHich are in number four; of which three will be visible in *Great Britain* and *Ireland*.

The first is of the Moon on the 17th day of *April*, about 1 in the Morning; and about 5 Parts of 12 of the Moon's body will be obscur'd from our sight; it happens in about 7 Degrees of *Scorpio*, which according to *Proclus* and *Junctinus*, signifies Thunder and Lightning, and sometimes Earthquakes.

The second is a great and visible Eclipse of the Sun on the first day of *May*; it begins about 10 Minutes past 8; the Middle is at about 17 Minutes past 9; and the End at 25 Minutes past 10 in the Morning. If the Air be clear, you will find about 10 parts of 12 of the Sun's Body obscured; it happens in about 21 degrees of *Taurus*. God preserve the Fruits of the Earth, and send us Peace and Plenty.

The third is of the Moon on *October* 10th in the Evening; it begins 19 Min. past 6; the middle time of the Eclipse

is at about 38 Min. past 7; and the end is 56 Min. past 8 at Night; it falls in the latter part or decanade of *Aries*, and about 8 parts of 12 will be obscured from our sight.

The last is an invisible Eclipse of the Sun on the 25th day of *October*, and since it is not to be seen here, I shall mention no more of it.

There is also this Year a double Conjunction of *Saturn* and *Mars*, their first meeting is on *September*, the first in the beginning of *Gemini*, and their second in the latter end of *Taurus*, on the 21st of *November*; being both retrograde, this will set many sly Knaves at work, close and bloody contrivances in many places. Not long before their last meeting they both confront the Sun, and stout Rebels will not stick to throw dirt in the face of Majesty it self.

Egypt (the Mother of so many Miracles) is own'd to be a early Nurse of Learning: *Pythagorus*, *Herodotus* and *Plato* own her, and many *Grecians* in their days travel'd thither for knowledge, but the *Egyptian* Priests unto whom it belong'd to teach, never deliver'd their Doctrines but by some dark representation, and not by many words, and this they imagin'd kept their Mysteries from Profanation: Especially those relating to their Gods, &c. which they presented to the Peoples view in the shapes of living Creatures; which they call'd Hierogliphicks, or sacred Characters, (instead of Writing) as first, they represented the Power of God by one Body and three Heads, (by which one might think they had some knowledge of the Trinity) but having neither Hands nor Feet, because the Almighty governs all things by his Wisdom and Power, and needs no visible Members.

1. God's Power in Nature was signified by a Man painted with many hands, stretching them out upon the World.
2. A selfish time pleaser was represented by a Hedg-hog, which wraps himself in his Down, but turns his Prickles to all the World besides.
3. The Chameleon denoted a Hypocrite, that can be of any Religion to please the Times, or serve his present turn.
4. A Prophet was signified by a Mole, a Creature without Eyes, which shews a Man of himself naturally blind, and has no clear foresight but by Divine Revelation.
5. A proud Man was signified by a Peacock, who stands with his Tail spread towards the Sun to admire himself.
6. A furious Man by a Lion eating up his

his Prey, &c. These are but a few out of many. Again in Scripture, *Judah* was Prophefied of, by the name of a Lion: *Issachar*, of an Ass: *Dan* of a Serpent: *Napthali*, of an Hind: *Benjamin* of a Wolf, &c. as in *Gen.* 49. from v. 3. to 28. and the *Babylonian* Monarchy both Heathenish and Mystical *Babylon*, was Prophefied of by the name of an Eagle, by several of the Prophets as in *Jeremiah* Chap. 48. v. 40. Chap. 49. v. 22. meaning *Nebuchadnezzar*, *Hosea* 8. v. 1. and many other Places. And now I shall present the Reader with one Hierogliphick as it came to my hand, and is as follows (*viz.*) a Ram treading upon a Field of *Flower-de-Luces*, or Garden of Lillies, and under his Feet three dead Dragons. The Ram trampling on the *Flower-de-Luces*, is thought, to signifie, that the Arms of *England* shall overcome and be victorious over those of *France* in the end; and the three dead Dragons to signifie the downfall of the *French* Tyrant, his Tyranical Power, and the Power and Dominion of the Popish Clergy, by whose means chiefly he has been led to persecute and destroy so many Innocent Persons of his own Subjects, besides those that have lost their Lives in the unhappy Wars, which the Allies are justly engag'd against him in, to curb his Insolence of being a universal Monarch, &c. "And when he had open'd the fifth Seal, I saw under the Alter the Souls of them that were kill'd for the Word of God, and for the Testimony which they maintain'd; and they cried with a loud voice, saying, how long Lord, which art holy and true! Dost thou not judge and avenge our Blood, &c. *Revelations* Chap. 6. v. 9 and 10.

Of this I hope I shall have room to give a full account in my next.

Observations on the four Quarters of the Year.

AND first of the Winter which takes its beginning at such time as the glorious Lamp of Heaven touches the first point of the Cœlestial Goat or sign *Capricorn*; which

which according to Mr. *Wings* Tables in his *Scientia Stellarum*, happen'd December 10th, 1705, at 10 h. 31 min. 15" P. M. or 31 min. 15 seconds past 10 at Night, at which time about 18 degrees of *Virgo* ascends the Horoscope, and 14 of *Gemini*, on the Midheaven, or tenth House; *Saturn* in the 9th in *Taurus*, *Jupiter* in the 11th in *Cancer*, the sign of his Exaltation, *Mars* and *Venus* in the third near the Cusp of the fourth in *Sagittarius*, the Sun and *Mercury* near the Cusp of the 5th, applying to an Opposition of *Jupiter*, and the Moon upon the Cusp of the seventh in *Pisces*; from which we may gather, that this Quarter will be taken up in Council, and many thwartings and making of Parties, which is the only Evil belonging to the Nation, the restless Tribe are not contented, and you may guess at the Reason, the proud in heart alway seeks to exalt himself. Many heats and animosities arise, and no body (that Monster amongst mankind) in the fault. If we believe the holy Scriptures we may see there what befel the Rebellious *Israelites* under the Law, and also the Stubborn *Jews* that would not receive the Gospel of the Holy *Jesus*, but persecuted him and his followers unto death. Had *Jerusalem* been united *Titus* had never sack'd it but for their Sins, as Christ foretold it, who was very truth it self, God suffered them to be overthrown and dispers'd. Therefore as a worthy Author has it.

*Let Jewry Britain's warner be, let Jebus London Teach,
That we Gods wrath may fear and see, whilst Jews to
(English Preach.*

The Diseases of this Quarter are generally such as proceed from Malencholy, as Black-Jaundice, Consumptions, Pains in the Arms, Legs and Shoulders, Gouts, Wind, and disorder in the Blood, which brings me to

The Spring Quarter.

That takes its beginning when the Sun enters the Equinoxial sign *Aries*, and is this Year 1706, on *March* the 10th, about 5 Min. before 1 in the Morning by Mr. *Wings* Tables, but by Mr. *Streets* Tables half an hour before one; by the former about 14 degrees of *Sagittarius* ascends the Horoscope, and 16 deg. of *Libra*, on the medium *Celi*, *Saturn* in the fifth in *Taurus*, *Jupiter* in the Eighth in *Cancer*, *Mars* located in the second in *Aquarius*, *Venus* and *Mercury* in

in the third in *Pisces*, and the Moon in the seventh in *Gemini* in Square to *Venus*; here all things at present seem quiet, and some parts of the *North* seems to be weary of the Wars, yet many Duels and Quarrels this Quarter; *Holland* is in a flourishing condition, and *Prussia* begins to thrive, many contrivances near this time, and much talk about warlike affairs; Great enquiring after News, and abundance of Tongue Warriours at work; yet the Month of *April* brings some good news to the Merchants. Much Plotting and Trick- ing, and many scandalous Libels dispers'd, in order to dis- turb the Government, and all under the pretence of Re- ligion, by a brood that have no Religion at all in them. The *Polander* begins to be out of order, the Government is Cap- sick, *Bavaria* has a mind to rebel, the Affairs of *France* grow worse and worse, let the People think what they please to the contrary; Let those that delight in Chains and wooden Shoes go to *France* and enjoy the pleasures of them; and those that Love Queen *Anne* and the Succession as settled by Law in the House of *Hanover* stay in *England*, and enjoy Liberty, and sing as follows,

*He that gives Crowns and noble Scepters sways,
Has put an end to all our suffering days;
Has fix'd a Queen upon Great Britain's Throne,
That every Loyal-Heart does call his own;
O let her Royal Will be still a Law,
To curb, and keep, her Enemies in awe;*

As well those Domestick as Foreign.

The Diseases of this Quarter, are great pain in the Head, weakness in the Legs, and dangerous for those that sport in the Garden of *Venus*, Corruption in the Blood, and distempers in the Fancie, and which brings me next to consider.

The Summer Quarter.

WHich commenceth at such time as bright *Phœbus* mounts the Cœlestial Crab, or sign *Cancer*, which this Year is on *June* the 10th, at 13 hours 17 min. P. M. or the 11th day 17 min. past 1 in the morning, at which time near the middle of *Taurus* ascends, and *Saturn* posited therein, and upon the 10th house we have 18 degrees of *Capricorn*; and old sullen *Saturn* Lord of the 9th, 10th and 11th Houses, and *Mars* in *Aries* located in the 12th, &c.

from

from which we may gather, that the People are minded to give themselves up to Contention, Lying and Dissembling, telling the greatest of Lies under a Colour of maintaining the truth, and running headlong to the Devil, in pretence of serving God: these are the Wolves in Sheeps cloathing, pretending they are of the household of Faith, but belong to the Synagogue of Satan; The Armies at present seem quiet, and rather think of securing themselves, than to run the hazard of a fight.

*If these don't fight, their Sons may be forbid,
To tell the noble Acts their Fathers did.*

Yet I doubt not but the Month of July may bring us a good account of some noble Action, I hope to the honour of the English Nation; Let the Jesuitical Tribe beware; Rome it self is very uneasy; I hope the Emperor by this time is fully satisfied that Priest-craft deceived his Predecessor, and had like to have ruin'd him, therefore let him have a care. Spain is an ill condition, and quite weary of a French Yoke and a Ginger-bread King, much struggling and striving amongst Men for superiority, &c.

*Alas my Masters, why so much at strife,
You'd better lead a modest quiet Life,
The greatest Prince that on the Earth doth dwell,
Must die, as well as the Hermit in his Cell;
And when they'r dead, and laid in silent rest,
Who knows with (God) which is accepted best.*

Then pray why all this stir.

The Diseases of this Quarter are such as proceed from Wind, as Chollick and croaking in the Guts, obstructions in the Bowels, disorder in the Blood with pain in the head, &c.

The Autumnal Quarter.

WHich this Year begins when the Sun touches the first Point of the Equinoxial Sign *Libra*, and makes the Days and Nights at equal length, as in *Aries*, it falls on the 12th day of September, at 25 min. past 2 after Noon, at which time the very beginning of *Taurus* ascends, and *Saturn* Lord thereof in Conjunction with *Mars* in the fifth House, the two grand rebels of the Sky meet twice in Conjunction this Quarter; and I doubt not but you will hear of many hopeful tricks acted therein, &c. the Diseases of this do not much vary from those of the last; and thus I end
my

my Observations of this Year, with God save Queen ANNE.
Here follows the Relation of an Antient Jew as it was
Printed at Rome, and sent from the Hague to a Merchant in
London, (being as it is said) faithfully translated from the
Original Copy some Years ago, which take as follows, &c.

- In 1704, A Great Man Conquers ore and ore.
- In 1705, Rome goes down and England thives.
- In 1706, The Turk and French will play strange tricks.
- In 1707, A Prince full North to's shifts is driven.
- In 1708, Old England then in happy state.
- In 1709, A famous blow makes Europe shine.
- In 1710, The World is all in Wars agen.
- In 1711, A fatal stroke this Year is given.
- In 1712, Great mourning for a famous Queen.
- In 1714, Such wonders nere before were seen.
- In 1715, Romes City now is all in flames.
- In 1716, This Year discovers all their shames.
- In 1717, This Year a happy Peace is made.
- In 1718, But not long liv'd I am afraid.
- In 1719, The Turk receives a fatal blow,
- In 1720, This Year a mighty overthrow.
- In 1721, The fears of Wars, are past and gone.
- In 1722, The World turn'd topsie turvy now.
- In 1723, Great changes you will hear and see.
- In 1724, Now Peace is fix'd all the World ore.

But Peace follows.

Some other remarkable Prophecies were found in his Bed-Chamber, in
the Year 1684; relating to the Troubles in England, the Landing of King
William, his Noble Action in Reducing Ireland, &c. and at last speaking of
his Death he adds,

A Female then with Courage, and with Grace,
Ascends the Throne, and fills the vacant Place :
She fills the World with Fame, from shore to shore,
And works such wonders none could do before ;
Her conquering Arms the Flower-de-Luce subdues,
While rescu'd Europe's glad to hear the news.
Her Reign is free from Sorrow and from Cares,
Her virtuous Acts adorn the Crown she wears :
Yet when this Royal Dame is call'd from hence,
Black Northern Clouds, and Storms a fresh commence ;
And when those times appear unto your view,
None can forget the Old and Wandering Jew.

I have many things by me that are past, said to be his Writings, but
want room to insert them, and what is here set down, and is to come,
time must manifest the Truth thereof.

The Authors farewell to his Book.

NOW farewell Book, there's no excuse to stay,

Time calls thee forth, therefore thou must away ;
Go boldy on, speak kindly to the end,
That every honest Chap, may prove thy friend ;
'Tis true, tis not thy fate alone I know,
As well as thee, there's many others go,
So now begone, trudge along carefully,
Affronts ne're heed, but mildly pass them by.

Foul words can't hurt thee, all that can be said,
 When the Year ends, thou and thy faults are dead;
 Keep a good Tongue; avoid all hate and strife,
 And then tho' short, thou'lt have a quiet Life:
 Now pass away, let the kind Reader know,
 When once commanded, thou art free to go,
 With what thou hast, and when this Year is over,
 We'll see what further News we can discover.
